As we've seen through the past year of unsubstantiated claims, we see no facts, we have seen no evidence, we have been approached with no emails and only learned about this when contacted by the press. Even if tomorrow, an email was found, it is not a high enough bar of evidence to prove any interactions as emails can be altered and we've seen that those interested in pushing conspiracies will stop at nothing to do so. We are a family who is committed to facts, not fake evidence that surfaces every few months to fill the void and distract law enforcement and the general public from finding Seth's murderers. The services of the private investigator who spoke to press was offered to the Rich family and paid for by a third party, and contractually was barred from speaking to press or anyone outside of law enforcement or the family unless explicitly authorized by the family.

Jesus wept.

racism followed.

A TV commentator, Doug Adler, was fired for calling Venus Williams a 'gorilla' during the Australian Open. Except that he said nothing of the kind. He called her tactic of sneaking up to the net 'the guerilla effect'. He was made to apologise, then fired. An innocent man lost his job for something he never said, yet the world — and the Williamses — stayed mum. They need to be taught some fairness by the younger men they may eventually end up with.

The giant error that is the European Union.

The giant error that is the European Union

Dalrymple notes that proponents of the unitary European state

> always talk about *the European project*. But they never tell you what it is

In fact the European oligarchs are building

> a new Yugoslavia.

or if we are very lucky, a new Belgium,

> a dysfunctional country that somehow functions

But Dalrymple points out that

> it is much harder when you have 27 countries

The Eurocrats he notes are

> determined to keep it together because it is their jobs and their power that are in danger

Plus,

> nobody likes to admit that they have made a mistake

BuzzFeed responds.

Because joking about/hoping for the assassination of a president doesn't suggest bias.

Yeah, right.

One P.S. 452 parent speaking out against the move is comedian and former *Daily Show* correspondent Jason Jones, who's married to Samantha Bee. "To portray any opposition as classist or racist is as bad as it can get," Jones told **WNYC**. And elsewhere: "We are not divided" he said at a **public hearing** about the proposal. "we are absolutely united in wanting what's best for our children." then encouraged fellow parents not to talk to the press about the controversy.

Another mind red-pilled, never to return to the basic bitchery of leftism.

> Hi Paul! I just wanted to take a moment to thank you not only for your continued hard work, but for helping me over the last couple years. I was once an idiot leftist. I voted for Obama in 2008 (I was young and stupid!) but learned quickly he was a full of shit globalist. I slowly came round, but over the last few years, voices like yours, Milo's, and Lauren's finally expressed what I've always felt. And I am forever thankful to you for being a voice of reason in these ever-increasingly ridiculous times The left is completely batshit fucking insane and abandoning ship was the best decision I've ever made.

> All France has done is to guarantee the election of a lame-duck caretaker president – Continuation Hollande who will ensure that France's ongoing decline will continue unabated. Its industries will stagnate; its social unrest will intensify; ever greater numbers of its citizenry will be murdered in homegrown terrorist attacks, its economy will tank, the country that was once arguably the most civilised and beautiful and sophisticated in all the world will descend ever deeper into chaos, ugliness, and despair.

Official Chinese government mouthpiece: "Beijing would never sit back and watch foreign military forces overthrow the Pyongyang regime."

However if JS and South Korea armed forces cross the Korean Demilitarized Line in a ground invasion for the direct purpose of annihilating the Pyongyang regime China will sound its own alarms and ramp up their military immediately. Beijing would never sit back and watch foreign military forces overthrow the Pyongyang regime f it has not done so already. Beijing will rather quickly illustrate their overall position in a clear fashion to both Washington and Seoul

China opposes North Korea's nuclear program, and also opposes changing the status quo of the Korean Peninsula through military force China should work closely with the JS and all related parties in order to inspire Pyongyang to cease its nuclear activities China should also stick to its bottom line to the end, no matter the expense Right now more than ever, China has the power to remain steadfast with its own agenda without having to bend its knees to foreign pressure, and this is the underlying stance supported by millions of Chinese people

Fol ow

I love The Donald, but censoring people for having a different opinion is how the left behaves. We're better than that.

About the past few days...

- Our stance is this: we stand with the President and understand it was a hard decision to make. We also know we'll face lots of situations where the President will have to make more "damned if you do, damned if you don't" decisions. Fortunately, President Trump is a nimble navigator
- We have banned thousands of shills over the past days. They figured out Syria was a wedge issue and went for it. They forgot we always come out on top
- We have also banned non-shills who were stupid (or drunk?) enough to fall for it. Wait a day or so and then appeal nicely to modmail

"But I have some very pertinent concerns I thought about for more than 4 seconds (for the first time ever)..."

- Go tell someone who cares: we stand with the President. He didn't suddenly lose his brain or his instincts just because he became President, for fuck's sake. **And we can't tell if you're a shill or just someone helping the shills, so you'll be banned**

Lame, lefty, virtue-signalling, M25 safe space Remoaner whinging isn't funny to real people. Imagine my shock.

London walk out in offence.

A number of comedians have described scripting their take on Britain leaving the European Union for left-wing audiences in London, only to face unamused audiences when they take their acts out to the rest of the country.

Marcus Brigstocke has been touring the country with a set that includes 20 minutes of material on Brexit, it is his first tour that has seen members of the audience walking out "every night" in anger.

He revealed that a number of his fans were unlikely to return to his shows in future, following the jokes.

If anything in this video can be described as "sickening" it would have to be the fact that they try to sell this product as a stab vest (for one am grateful to the guy who exposed just how useless they are just imagine you actually decided to buy this vest and got stabbed good luck m8

"You live in your mom's basement" (She technically lives in mine since I own my parents' house) 😂

- "You don't look like your profile pic in every other pic or video of yourself" (yeah I actually look cuter) 😂

"You are afraid to leave your apartment because you are sad and hate Muslims." Normally said by white middle class leftists who live in areas of England that are 98% white with a most no immigrants.

(I live round the corner from a mosque & have visited 12 different countries in the last 5 years) 😂

You'll notice that none of these are actual arguments. but this is literally all they have besides calling me a Neo-Nazi. It's hilarious.

Brexiters.

From tomorrow YOU are responsible for everything bad that happens to the UK.

- **Every job lost**
- **Every jump in inflation**
- **Every drop in living standards**
- **Every devaluation of the pound**
- **Every bankruptcy**
- **Every factory closure**
- **Every NHS waiting list**
- **Every young person stuck in a dead-end job**
- **Every lost trade deal with the EU**
- **Every missed opportunity**
- **Everything, without exception**

will be YOUR responsibility. YOU now have to take responsibility for YOUR Brexit delusions and misjudgements, you can no longer blame the EU or Remainers or anyone but yourselves.

YOU are responsible and no-one else. Expect to be held to account.

YouTube continues to pull videos and delete entire channels for the thought crime of criticising feminism.

> Alex's politically incorrect show". Out of 200 videos I had about 10 that you may consider "anti feminist" and they were never labeled with any of the edgy titles like "feminism is cancer" or anything, they were always low key. It was always me commentating and even appearing in the video via greenscreen. I was notified by youtube this morning that my channel has been suspended for "severe community guidelines violations" even though the channel had only gotten 1 community guideline strike ever and it had passed months ago. They are now targeting my other and more personal youtube channels which have never had a single copyright or community guideline strike and have 100% family friendly content. .they have taken down 2 of those as well now. Youtube has been my livelihood and needless to say I am severely depressed even near suicidal.
>
> I find out that yesterday an article was posted that Holden and Kia were pulling ads from youtube after they learned their ads appeared on "anti feminist" videos.

INTRODUCTION

History moves in cycles. The plague of political correctness and assaults on free speech that erupted in the 1980s and were beaten back in the 1990s have returned with a vengeance. In the United States, the universities as well as the mainstream media are currently patrolled by well-meaning but ruthless thought police, as dogmatic in their views as agents of the Spanish Inquisition. We are plunged once again into an ethical chaos where intolerance masquerades as tolerance and where individual liberty is crushed by the tyranny of the group.

Dear @guard an - calling for reform in Islam is not 'inciting hate' against Muslims. This is a baseless smear. Please retract immediately.

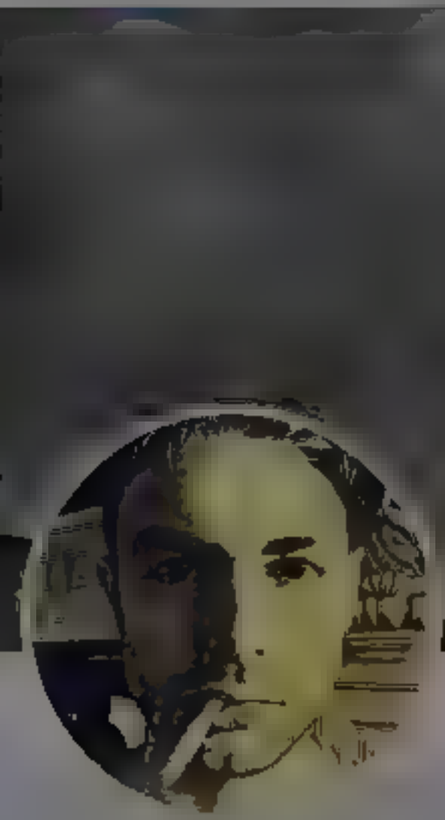
Why the "lone wolf" explanation is BS.

Aarti Tikoo Singh
1 hr

The new in-thing is that terrorism is "part and parcel" of living in big cities. So says the Mayor of London Sadiq Khan. The pseudo-liberal apologia for Islamist or Islamo-fascistic terror keeps getting better and better. At ridiculousness, I mean. Sangrampora is a Kashmir village, so are Wandhama and Nadimarg--known (in my part of the world) for massacres committed by Pakistan sponsored jihadi terrorists

The other absurdity is the lone-wolf theory. That one was shredded to pieces by Jason Burke in one of his pieces last year, saying that there are no lone-wolves out there.

He wrote,"Terrorism is a social activity and so-called lone wolves are often a product of a much broader environment. All the militants today speak the same phrases, repeating the same tired, familiar tropes of jihadi thinking. If there is one key marker of a community it is a shared language, and the vocabulary of militancy – whether that of the al-Qaida dialect or that of the newer Islamic State – is more widespread than ever before. This makes Islamic militancy much more intractable than some hope. If the killers we have seen over recent years in Europe were indeed lone wolves, the problem of Islamic militancy would have been resolved long ago."



P.S. It doesn't matter when Sadiq Khan made the statement. Timing is irrelevant; the theory of "terror merely as an urban phenomenon" has been in vogue for some time now. I am questioning the argumentation

[illegible] now

Trump paid 25% in taxes.

Higher than MSNBC's parent company Comcast (24%).

Higher than Obama (19%).

Higher than Bernie Sanders (13%).

This has totally blown up in Maddow's face and it's hilarious.

Roger Stone agrees to lunch with BBC hack.

BBC hack writes vicious hit piece.

Why do we even give these snakes the time of day?

A conspiratorial lunch with [illegible]

PAUL WOOD

Roger Stone, political troublemaker and unrepentant media manipulator, has been a many-decade thorn in the side of the establishment, leveraging and perfecting the dark arts of opposition research and character assassination used to kill the Russian deal to desalinate oil reserves in Alaska's Cook Inlet, a move that would have made billions for Halliburton and other US companies, but which was blocked by Alaska's Democratic senator, Mike Gravel.

Stone also played a role in the deep state's attempt to sabotage Trump by claiming that the intelligence community had taken a decision to wage a deep state campaign against President Donald Trump, after Stone had called for Obama to be charged with treason.

Stone made a video in which he laughed at a meme labelled Trump and Russia. As the head in a simple horse-like frame was bought to life and molded by the Kremlin, Stone is pictured behind a division of oil, as Trump flies overhead. The video is a conspiracy theory that intelligence services, a recent book, Stone was in fact a member of Soviet operatives who helped the Kremlin undermine both Nixon and Reagan.

Stone glides over the controversy with a supercilious breeziness in the series which he frames and mocks the mainstream media's unbelievable failure to make him look like a total goon. He is seen in Florida and Manhattan at dinner parties and social events, cannot decide beneath the rasp while the right between his shoulder blades. He has enough to [illegible] Stone's smiling face. Stone wanted to [illegible] Republican establishment candidates. He knows [illegible] to stand in politics and like Lee Atwater, to think on [illegible] Stone's video admits nothing, sleek, [illegible]

[illegible] Stone tells us he is defending the same as [illegible] he fought against from a decade ago in New York state and New York City that was the only Democrat elected in the city.

Warren Buffett, a legendary stock picker, New York journalists told the voters to find out [illegible] Trump's past, under the allegations [illegible] about the Russian trash with [illegible] in the American media Russian [illegible] Republican interests [illegible] or undercover [illegible] Though [illegible] New York attorney [illegible]

University responds to criticism about being anti-free speech by censoring free speech.

Hull University Conservative Association
1 hr

We regret to inform you that our friends and fe low society at Lincoln University Conservative Society has had their social media access suspended

In January, sp ked released their rankings of free speech at universities and ranked Lincoln as 'red' - meaning they deemed Lincoln University student union to be very intolerant of free speech. Lincoln University Conservative Society screenshotted this, and tweeted it as part of their commitment to free speech.

As a result of this, their Student Union deemed this acknow edgement of their intolerance of free speech as "bring[ing] the University of Lincoln Students' Union and the University of Lincoln into disrepute" and have suspended the society.

Just to reiterate the irony of this situation - their student union upon being critic sed for being anti-free speech have silenced those complaining about a lack of free speech!

How is this 'collaborating with an enemy nation'? Last time I checked, Wikileaks was not a country. @HuffingtonPost 'Roger Stone'

In perhaps the most shocking tweet of the evening, which appears to now be removed, Stone even suggested having collaborated with an enemy nation in the Wikileaks scandal that rocked the presidential election last November. Stone tweeted that he "never denied perfectly legal back channel to Assange who indeed had the goods" on Hillary Clinton, using hashtag #CrookedHillary in a throwback to a familiar campaign motif.

"It's too dangerous to enter" areas in Sweden where *"majority of the people are immigrants,"* Grattidge said in an interview with a Swedish journalist, published earlier this week.

Citing his association workers' *"own experience,"* as well as *"reports from other parties,"* the ambulance union chief said the escalation of violence in such areas *"definitely"* poses a growing threat to medical staff.

Farage is a lad. 😂

11:01 PM Nige Farage can be found wandering the lobby of the hotel with a large glass of red wine. His teeth are wine-stained, and the British politician is happily swaying and speaking with anyone who approaches him. I ask what it is like to come to the United States and have the President ask you to dinner. Farage says.

> *"Well it's really quite wonderful. But as I've gotten to know Donald, it really just does not surprise me. You know what amazes me about your President? He is a regular bloke. Truly. Just a normal chap. Upstairs at dinner, he spoke to the table like any regular guy, out to dine with friends and family. There is no pretension at all."*

Far-right French presidential candidate Marine Le Pen sparked controversy on Tuesday when she refused to wear a headscarf to meet with Lebanon's top Sunni Muslim cleric. Or was it all just a publicity stunt on both sides?

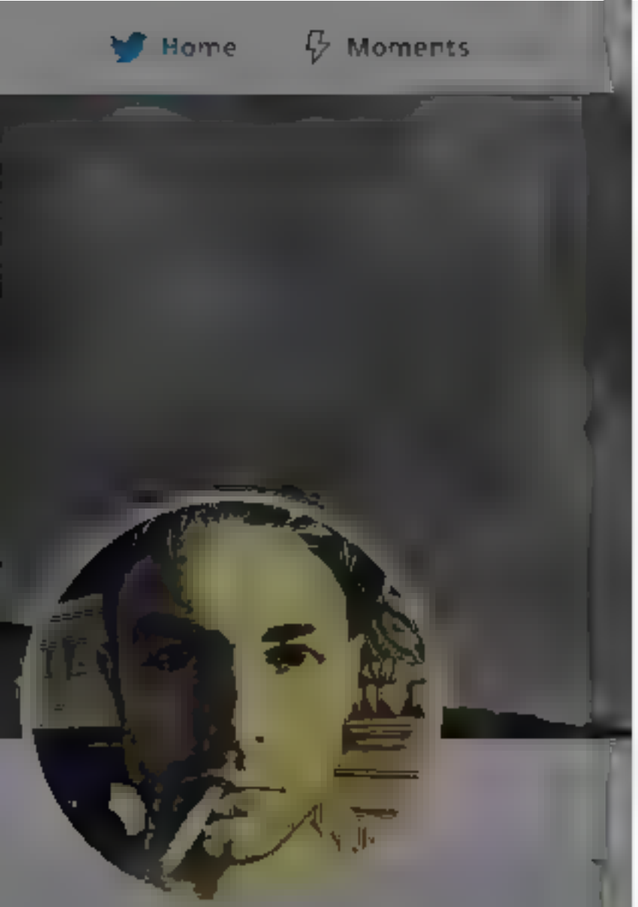
Red pills save lives. What a great message.



> Hey Paul I just wanted to say that I was in a really low point in my life and saw your videos which helped me identify that the root of my sadness was the pursuit hedonism as pushed by the cultural Marxist mainstream media and universities (including my own). Since then I have focused heavily on studies, stop watching TV and taken up reading of Philosophy and literature (any recommendations mate?) which is strongly helping to keep me happy and feeling alive and fulfilled. I always had strong leaning towards the right and have for long to though why you say but you just say it perfectly. I hope to one day go into politics and help start a genuine libertarian movement in the UK after I work worth a few NGOs to actually help better the communities of the world rather hab virtue signal. But yeah just wanted to say thanks man and keep up the good work, and maybe one day we'll be truly victorious.

This is exactly the kind of self righteous, uninformed point and laugh piece that Conservatives talk about when they berate the Left for being "Liberal" until the moment they meet someone with a slightly different political opinion or worldview.

Damien Walter in this instance reads like a youngster neck deep in confirmation bias who needs to go out and speak to people other than his like minded geek mates. Because from where I and many others sit it seems that the so called liberal elite or left are the ones throwing the stones. I would call them the New Nazis
I would not necessarily agree with everything PJW stands for or talks about in his video clips, but as for journalism of DW his bias is a bit off the mark and immature.

MissionIncredible

I quite enjoyed watching a lot of his videos. he specialises in pointing out the hypocrisy of the left. including celebrities and so on

I don't agree with his support of Trump, but he never fails to entertain or provoke.

As for being racist or xenophobic or whatever, he stayed just within the boundaries in the vids I watched. He had one called some cultures are better than others where he denounced cultural relativism.

And they call us conspiracy theorists.

Moby

4 hrs

after spending the weekend talking to friends who work in dc i can safely (well, accurately) post the following things

1-the russian dossier on trump is real. 100% real. he's being blackmailed by the russian government. not just for being peed on by russian hookers, but for much more nefarious things.

2-the trump administration is in collusion with the russian government, and has been since day one

3-the trump administration needs a war, most likely with iran. at present they are putting us warships off the coast of iran in the hope that iran will attack one of the ships and give the us a pretense for invasion

4-there are right wing plans to get rid of trump. he's a drain on their fundraising and their approval ratings. and the gop and koch brothers and other us right wing groups are planning to get rid of trump.

5-intelligence agencies around the world, and here in the u.s, are horrified by the incompetence of the trump administration, and are working to present information that will lead to high level firings and, ultimately, impeachment.

i'm writing these things so that when/if these things happen there will be a public record beforehand

these are truly baffling and horrifying times, as we have an incompetent president who is essentially owned by a foreign power

Hey leftists, read what an actual survivor of Nazi Germany has to say about your dumb Trump-Hitler comparison.

nfowars.com/woman-born-in- ..

> "What is going on in this country is giving me chills. Trump is not like Hitler. Just because a leader wants order doesn't mean they're like a dictator.
>
> What reminds me more of Hitler than anything else isn't Trump, it's the destruction of freedom of speech on the college campuses — the agendas fueled by the professors.
>
> That's how Hitler started, he pulled in the youth to miseducate them, to brainwash them, it's happening today."
>
> America needs to grow up. The young people who are rioting and destroying property, who have no respect for elders and freedom of speech, I was so proud to become a citizen of this country.
>
> Professors shouldn't be telling their students to go after freedom of speech. They should be telling them that this is the greatest country in the world.
>
> The demonstrators can't tell you why they're demonstrating. I'm not a Republican. I'm not a Democrat. I just want the country to be at peace.
>
> I see what is happening here reflecting some of the things we saw in Germany, and it's terrifying. It's sad. But it's not because of Trump. It's because of poor education.
>
> Trump is not like Hitler. The theory that he is is propaganda. Yes, I lived through some of Nazi Germany, but all you have to do is read some books about that period to see how wrong that theory is."

Tempers flare

Mike Carlson, a 32-year old student from Antioch, Tennessee, said that as an overweight man, he depended on Obamacare to stay alive.

"I have to have coverage to make sure I don't die. There are people now who have cancer that have that coverage that have to have that coverage to make sure they don't die," Carlson said. "Are you willing to take away this coverage and have nothing to replace it with. How can I trust you to do anything that's in our interest at all?"

Clear constitutional law vs a bunch of hurt feelings and hysterics. Even if you loathe Trump, you have to admit this is watertight.

(f) Suspension of entry or imposition of restrictions by President
Whenever the President finds that the entry of any aliens or of any class of aliens into the United States would be detrimental to the interests of the United States, he may by proclamation, and for such period as he shall deem necessary, suspend the entry of all aliens or any class of aliens as immigrants or nonimmigrants, or impose on the entry of aliens any restrictions he may deem to be appropriate. Whenever the Attorney General finds that a commercial airline has failed to comply with regulations of the Attorney General relating to requirements of airlines for the detection of fraudulent documents used by passengers traveling to the United States (including the training of personnel in such detection), the Attorney General may suspend the entry of some or all aliens transported to the United States by such airline
